Subject: Re: Permitting question

Jon,

In the process of reviewing the AOC internally. The question came up with respect to the following statement in paragraph 27 on page 7. Can you please help me answer it?

"Praxair shall be the designated generator for all materials leaving the Site with respect to work conducted by Praxair."

Typically Praxair lists the property owner's name as the generator because with pipeline work Praxair does not own the property. The property owner typically has a Generator USEPA ID# or a NJDEP generator ID: Praxair lists itself as the customer on the waste disposal form. Praxair does not have a problem covering the costs associated with the sampling and disposal.

Does the EPA have a number for the LCP site and is it possible to operate in this manner? Praxair does not want to be considered a generator.

regards,

Subject: Re: Permitting question

Chuck, for the remediation on-site we do not need NJDEP permits, we just need to show we're meeting what the permits would say ("permit equivalency"). Since your work is unrelated to the cleanup, I imagine you'd need the permits, but I'm not sure.

Frank, any idea?

Jon

Subject: Permitting question

Hi Jon,

With respect to superfund site in NJ that is to be remediated. It is under EPA oversight. Do the NJDEP waterfront development, wetlands, and other assorted permits still apply or do we operate on EPA directive based on our proposed and EPA approved workplans? If NJDEP permitting is applicable do we operate as normal with copy to you, or is there some other process?

regards,

Charles E. Terbot, PMP
